**Section 2.1 - RULES FOR SUBMITTING OFFERS**

When the result of an Internet solicitation is unsuccessful, the State of Rhode Island will cancel the original solicitation and resolicit the original offer directly from vendors.

2.2. PRICING. Offers are irrevocable for sixty (60) days from the opening date (or such other extended period set forth in the solicitation) and may not be withdrawn, except with the express permission of the State Purchasing Agent. Laws §37-13-3.1 prior to allowing the subcontractor to commence work on the awarded project. The general contractor shall be responsible for submitting the subcontractors compliance certification to the Division of Purchases after the contracts are finalized between the contractor and subcontractor.

## Bid Proposal

May 13, 2013

Atlantic Control Systems Inc. submits a bid of One Million Seven Hundred Sixty Eight Thousand Dollars and 00/100 (\$1,768,000.00) for work required per Bid/RFP #7461399A6 meeting the following design-build specifications:

1. Intent. This proposal is to furnish and install a Rovanco Piping Systems Inc. Insul800 piping system per the specification requirements with a project start point of the Alger Steam Pit (P-1), running to and through the new proposed above ground valve station (VS1) and concluding at termination tie in points after the second above ground valve station new the existing Mall Pit (VS2).
2. Product selection. This proposal is per contract documents and no alternates are proposed.
3. Field measurements and verification. All work shall be located and is sized to match existing conditions. Where field conditions vary in either location, dimension or pipe size, we have included field verified sizes and quantities in our proposal.
4. Special Conditions. Atlantic Control Systems Inc. teaming with our primary sub-contractor, Coyne Mechanical Inc. will bring not only the technical expertise and experience of having previously installed 1,000's of feet of this identical product over the past two years at the Pastore Complex in Cranston RI, as well as at Rhode Island College, but more importantly currently has over 78% of all needed Rovanco Pipe and fittings currently on hand for this project available for immediate delivery to your site. This possession of a substantial quantity of pipe and fittings would provide an invaluable jump start to this project and we would anticipate actual pipe installation on site in trenches in less than one week from award. We feel this substantial start date advantage is crucial to meeting the requirements put forth in the RFP as the standard delivery terms for the quoted project are 8-10 weeks. Atlantic Control Systems Inc. can reach substantial completion per the RFP requirements of August 10, 2013 based upon a purchase order being provided within 5 working days of this bid opening. Final tie ins would be scheduled with Rhode Island College personnel at mutually acceptable times to minimize campus impact.
