1. Is the RFQ bid document equipment list for each building comprehensive for all equipment included in the contract?? The equipment list for the YDC Building does not include air handlers, pumps, water heaters, etc...

Answer: There was a page missing which now has been attached to this Addendum.

Website: www.purchasing.ri.gov

Answer: Yes, some equipment is on the roof, we have attached the equipment tag list for both buildings. It describes where it is located and the service it provides.

- 3. The RFQ bid document equipment list contains equipment showing "Customer Tag #'s" that are repeated i.e. YAC Exhaust Fans. Are these duplicates or are the shown quantities correct??**

Answer: YAC has 14 exhaust fans again, see the equipment list attached.

- 4. Are any pieces of listed equipment or components currently covered by manufacturer's warranty??**

Answer: No

- 5. Are any of the existing systems, equipment, components, etc... defective or not operational or that may have known or existing deficiencies requiring repair??**

Answer: No

- 6. Please clarify the maintenance portion of the contract with regard to "labor and materials to repair any equipment" as indicated in paragraph 4 of Section IV – SCOPE OF WORK/SPECIFICATIONS. Does this include replacement of components such as motors, coils, fans, shafts, etc... should they fail even if all preventative maintenance is performed??**

Answer: This is a fixed price contract covering all parts labor, etc. for the term of the contract.

- 7. How do contract repairs differ from non-contract repairs as identified in the hourly rate section of the bid form??**

Answer: Non contract repairs are anything that is not defined within the specifications.

- 8. The scope-of-work for the cooling towers specifies tasks for cleaning and start-up. However, under the water treatment specifications it indicates that the "vendor IS NOT responsible for the mechanical cleaning and of cooling tower or preparation of towers and systems for layover and subsequent recommissioning." Which is correct??**

Answer: The HVAC vendor is the responsible party.

- 9. The existing Metasys controls system is a proprietary product. Will full access be provided to the awarded contractor in order to operate the system?? Are software revision upgrades required and will they be obtainable??**

Answer: Full access to the work station will be provided 24/7; the revisions and upgrades currently go through Johnson Controls. Some arrangement will have to be made with them.

- 10. Who is responsible for cleaning the cooling tower? Water Treatment Company or the Mechanical contractor?**
