**ADDENDUM # 2**

Solicitation #7550105

*Title: Fire Alarm Equipment – Maintenance and Repair, Rhode Island College*

**Submission Deadline: January 6, 2016 @ 10:30 am**

Per the issuance of ADDENDUM #2 the following are noted:

- Submitted Questions & Responses
- Revised Specifications

*Interested Parties should monitor this website on a regular basis, for any additional information that may be posted.*

**Senior Buyer**

Vendor Questions & Responses : RFQ #7550105

- 1) What is the purpose of the page with the title: Sprinkler/Standpipes/Fire Pumps connected to Fire Alarm System? Is this simply to exhibit what systems are there, as this is a page out of BID # 7550113 which asks for pricing to do sprinkler work.

Response: See attached listing

- 2) On the bid pricing spreadsheet, the wording for the price of smoke detectors / heat detectors indicates a request for a price to purchase smoke detectors damaged by other than wear and tear. Why does it matter if it's normal wear and tear? Is vendor required to fix regular wear and tear devices, components at the vendor's expense?

Response: The detectors are to be replaced.

- 3) Will you provide an inventory of your Kitchen Hood Suppression and your Halon (Special Gas Suppression Systems) as you have requested pricing on the pricing spreadsheet but we don't know what type, the size/scope, or how many systems are in your inventory?

Response: See attached listing.

- 4) What are you looking for on page 5 of the bid? The page is titled request for quote but only has one line item. Is this some sort of total?

Response: Page 5 as referenced is a computer generated form that is required to print from the State RIFAN's system. Solicitation 7550105 provides a workable spreadsheet for which the bidders are instructed to provide pricing. No price total is necessary to be indicated on referenced page 5.

- 5) Bid # 7550113 & #7550105 both contain the "pg. 1 of 1 #7550105 specifications SPRINKLER/STANDPIPE/FIRE PUMPS" page. Does the interconnection to the fire alarm system mean a fire alarm technician is to be provided during the sprinkler system testing?

Response: The addendum will include the correct specifications for fire alarm maintenance and repair.

If so, which of these bids is required to include the fire alarm tech during testing? Both

- 6) The device counts provided in Addenda 1 provide an "estimate" amount of devices. It does not specify what type of devices and how many of each. Can a more detail report be provided or can the most recent fire alarm test reports be provided?

Response: Rhode Island College does not have a count on how many devices, the vendor can come to RIC to tour the buildings. It will take a week to do the test of all building on campus for the fire alarm one and three or four day for the Sprinkler testing.

- 7) Building #27, #29, #31, & #32 do not have an estimate number of device counts. Can fire alarm reports be provided for each of these locations?

Response: Buildings #27, #29, #31 and #32 we do not test, because #27 doesn't have a fire alarm in it, Building #29 has been demoed, #31 is going to be demoed within the next few months and #32 is the President House.

- 8) Can recent test reports be provided for the kitchen suppression systems and Halon systems?

Response: Currently the only information available is; the system 5 kitchen hood system and 2

FM 200 systems. If reports can be obtained information will be made available within an Addendum.

9) How many kitchen suppression systems and Halon systems are there?

Response: See answer for question 8.

10) Buildings 26 and 29-32 do not have panel types listed, can these panel types and model numbers be provided?

Response: Building #26 has FCI panel in and the remaining buildings are no longer in service or no fire alarm exists.

Addendum #2: Revised Specifications (12/21/15) – RFQ 7550105
